

Empathic Sciences® 4 'SQ' Learning Levels

Advancing HCDE/AI Immersion

Accelerated Learning Models at Higher Conductivity

EMPATHIC SCIENCES INTERSECTIONS

- ▶ Empathic Sciences® can be understood in technical terms via conceptualized psychoenergetic interpretive frameworks to encompass intuitive, historic, quantum, and restorative levels of generative energy-information currency relay at minimum.
- ▶ Empathy intersects IQ/EQ/SQ 'quotas'. Transdisciplinary grounded theory helps to articulate collective putative reality and universality.
- ▶ Empathic Sciences® accelerated learning modeling at higher conductivity produces radical, novel implicit-explicit data categories, typologies, indexes, taxonomies, symbolism, dynamic collections processes, guided unknown future applications, and emerging critical intelligence systems architectures.

Empathic Sciences® can be conceptualized to encompass intuitive, historic, quantum, and restorative levels of generative energy-information relay at minimum. The experiential (intuitive-empathic), social transference (historic-empathic), cosmic relevance (quantum-empathic), and evolutionary confluence (restorative-empathic) aspects of translating human consciousness via psychoenergetics sciences® requires expert psychic analysis serving heightened systems sciences design theory for a new millennium of scientific discovery. For example, 'smart machine' HCDE/AI immersive human computer design engineering design, from revelatory 'SQ' spiritual intelligence, psychic 'quota' articulation for the express purposes of radically elevated scientific advances.

21st Century 'new physics' means 'SQ' Engineers® operate within today's scientifically validated accelerated higher conductivity fields of coherence. New 'SQ' Engineering® core competencies will emerge. Routine HCDE/AI interactions will translate putative conventions of 'Source' suffusion that will redefine our relationship to time and space, each other, and planet.

Next level 'SQ' empathic 'capabilities inventories' will make S2SI 'spirit-to-systems' intelligence® smart machines possible and HC2T 'consciousness-2-technology'® a reality. 'SQ' etymology will expand programming syntax, evolving formal logic.

SUMMARY: Early 'EQ' researchers regarded emotional empathy as categorical, behavioral, and requiring valid constructs, etc. Today, Empathic Sciences® advances HCDE/AI human computer design engineering and artificial intelligence technology solutions. ... 'new physics' putative instrumentations elevate Empathic Sciences® research. Not merely ability, skill, and trait modeling of the past era, but accelerated learning models at higher conductivity. Transdisciplinary, grounded theory helps to convey our collective putative reality and universality. For example, empathic 'SQ' spiritual intelligence quota intersects 'EQ' emotional intelligence quota and 'IQ' intellectual intelligence quota but does not evolve from it. Being observable, innate, veritable, and putative; or can/not be measured by scientific instrumentation. Rather, innate 'SQ' empathic facilities are quickened and refined by psychoenergetic coupling, ascendancy non-locality, universality, and potentiated intentionality as adroitly articulated by the psychic adept. For instance, empathic realms, realities, and timelines may be perceptibly translatable by the psychic adept. Agility empathetic perceptivity demonstration, 'efficiency behavior patterns and selection habits' may also be translated by the psychic adept. And 'SQ' higher mental-modalities networks, universality human consciousness, and parietal executive developmental routing relevance which intersect the biophysiological sentience and ascendancy multi-sensory 'capabilities inventories' can also be articulated by the psychic adept paradigmatically shifting scientific discovery.

1 INTUITIVE EXPERIENTIAL

- ▶ Experiential intuition relays multi-variant conscious, psychic, co-creative spectrum, psychoenergetic, symbolic, instinctive, transformational, non-local, and revelatory knowledge.
- ▶ Intuition executive parietal routes of relevance translate 'knowledge sourcing' via higher mental-modality 'SQ' spiritual intelligence accelerated higher conductivity.
- ▶ Empathic Sciences® elevates 'EQ' emotional intelligence research by refining researcher understanding about intuition filters like human clairsentience, clairvoyance, clairaudience, clairgustivity, and other telekinetic capabilities inventories that can be modeled into HCDE/AI/HC2T immersion programming.

3 QUANTUM RELEVANCE

- ▶ Virtual reality (VR) may be a precursor to worked examples... next steps in Empathic Sciences® science and technology.
- ▶ Quantum ES® interpretations challenge the macro-enlargement of systems sciences design perspectives, theorem, critical justice praxis, and cross-sector/industry applications.
- ▶ Cosmic universality 'geometrical purpose blueprint' insignias and encoded language translation is key to HCDE/AI immersion programming. 'SQ' spiritual quota 'knowledge sourcing' transcripts® will be the firmware of the future via translatable putative 'new physics' quanta phenomena.
- ▶ Subtle energies have coalesced to a 21st Century ascension phenomenon on Earth that will radically shift how humans ascertain co-creative power and source knowledge. 'Source' immersion events captured by putative psychoenergetics instruments revealing coupled energy-currencies, frequencies, calibrations, and vibrational purpose will redefine our relationship to time and space, each other, and planet.

2 HISTORIC SOCIAL TRANSFERENCE

- ▶ Gateway for 'field of possibility' empathic-to-environmental scanning, energy-information, taxographical and lay line, phantom retrieval, and historical sense making.
- ▶ Timeline interpretation, non-locality accumulations, aggro-ecumenical, and disseminating of past/present/future social construction events.
- ▶ Empathic anthro-ethno-plenary 'records, memories, and momentum' energy-information blueprints, phenomena, and paradigmatics translations are useful for 'smart city' urban study, and climate change prevention, and UN SDG's, etc.
- ▶ 'SQ Engineering® empathic sciences will change the ways 'futures artistry' collaboration global responsiveness training technology is used for new millennium problem solving.

4 RESTORATIVE EVOLUTIONARY

- ▶ Empathic Sciences® serves equity social healing, community-based analysis modeling because most humans can access, utilize, and generate new knowledge from empathetic 'EQ' and 'SQ' exchanges. Empathy is important to acknowledging past harms and transformative targeted universalism enactments.
- ▶ Distributed *Voice* reparations via PIT public interest technology co-governance/conscious policy design can be improved by scaled HCDE/AI and HC2T empathic collaboration skills development or CSD, via 'smart city' civic engagement, voting mobility, university networks, and social services platforms.
